This is taken from our family room. We like an open floor plan. We chose off white cabinets and anchored the room with the mocha island. I found onyx pendant lights which I love. They give an orangey yellow glow. We also put lighting above the cabinets to add warmth. We can seat 7 or 8 at the island. It also has storage.

We bought a new house with an old kitchen knowing we were going to create our dream kitchen. We gutted it and made our own space for friends and family to gather to cook eat and be social. I put before during construction and after pictures on here. We plan to put tile on the backsplash eventually.
