

Extraordinary Works

Luxury by EW Kitchens

When you have the means and desire to invest in a luxury kitchen, you want the best — and you want a kitchen that's uniquely you.

Extraordinary Works' new showroom, to open this September in The Michigan Design Center, will showcase their ability to fulfill that desire. The 2,000-plus-square-foot space showcases Irpinia Kitchens. The top-end Canadian line marries Italian design with North American standards. Fully custom, each cabinet is made by experienced craftspeople using woods, finishes, and colors no one else has.

From high-tech automotive polyurethane to a vintage-look rubbed maple, Irpinia's cabinetry is available in a range of veneers and stains that can be mixed, matched and blended to complement any decor. Colors range from a vivid blue to a soft antiqued beige and everything in between, with woods from a zebra-striped Bolivar to traditional walnut and oak.

Door styles are also aimed at the most discriminating tastes, whether that means elaborately carved European stateliness or vibrant, clean cosmopolitan modernity. Decorative door inserts, hardware and finely tuned millwork add to the individual flavor of your unique design.

But all this would just be pretty if the cabinets weren't also highly functional. Easy-to-use pullouts,

modular cutlery dividers, and custom gallery systems make organizing food, utensils and serving pieces easy. Removable plate racks let you carry stacks of dishes directly from the drawer to the table. And five different door mechanisms allow for endlessly customizable functionality.

Extraordinary Works is the exclusive dealer for Irpinia Kitchens in Michigan. The cabinets will be displayed to gorgeous effect in the MDC showroom, highlighting the fact that Irpinia can also be used in the bath and office, and really, any room that requires organized storage.

Extraordinary Works also carries custom cabinetry by Mouser and Quality Custom Cabinetry, which will be displayed in the MDC showroom. Countertops, appliances, flooring, lighting, ornamental hoods, and a host of other features round out the offerings that make Extraordinary Works not just kitchens, but works of art.

Extraordinary Works' designers have many years of highly specialized training and experience, focusing on the luxury client. Dennis Palazzolo, vice president and certified kitchen designer, is a member of the National Kitchen and Bath Association (NKBA) and an industry partner with the American Society of Interior Design (ASID). Robert Zebrowski, director of design and

certified kitchen designer, is president-elect of the Michigan chapter of the ASID and is actively involved with the NKBA and the Building Industry Association of Southeastern Michigan.

Both Dennis and Robert are licensed builders and listed on the State of Michigan list of Qualified Interior Designers. With an almost infinite variety of looks and function available, talented designers and their discerning clients can create a truly extraordinary kitchen with the help of Extraordinary Works.
